For: VERTICAL AXIS WIND TURBINE :

**DECISION ON PETITION**  
**37 CFR 1.181**

This decision is issued in response to applicant's requests filed on 10 and 28 February 2011 in the United States Patent and Trademark Office (USPTO). The requests are being treated under 37 CFR 1.181 and are **GRANTED**.

On 05 January 2011 applicant was mailed a decision granting applicant's petition under 37 CFR 1.182 to have the materials filed 21 January 2006 and assigned U.S. application number 10/565,227 treated as the national stage of PCT/GB2004/003257.

On 18 January 2011 and 23 February 2011 applicant was mailed Forms PCT/DO/EO/922 requesting a copy of a sequence listing in computer readable form.

As applicant points out in the present filings, the present application "vertical axis wind turbine" does not contain any subject matter which would require a sequence listing.

The Forms PTO/DO/EO/922 mailed 18 January 2011 and 23 February 2011 are hereby **VACATED**.

The application is being referred to the National Stage Processing Branch of the Office of PCT Operations for further processing in accordance with this decision.
